

Partial Revision of Certification Criteria: Eco Mark Product Category No.123
“Building Products Using Recycled Material”

Annex 4

The following minor revisions are made to the relevant items in certification criteria in order for clear interpretation of the meaning;

1.The following revisions are made to Item (2) of “4-2. Common environmental criteria” (area marked with == have been deleted and the underlined bold text added);

(2) The percentage of the above-mentioned ~~recycled materials~~ in a product shall be at least 50% of the product’s net weight.

When multiple categories of raw recycled materials are used, the mixture amount of raw recycled materials that make up 20% or more of the product shall not be less than the standard mixture amount shown in Attachment 1.

2. The following revisions are made to the first line (scope of certification criteria) of “4-2. General material criteria” (bold underlined text added);

This item is applied to recycled materials that are used in 20% of the entire product. For (10), (11) and (13), it is applied to products.

3 . Revised: August 18, 2004
