

Eco Mark Product Category No.139 “Building Products (Equipment) Version 1.1” Certification Criteria (Draft)

Category B-2 Waterproof Tray

1. Applicable Scope

- Waterproof tray for bath JIS A 4419
- Waterproof tray for washing machine

2 Certification Criteria and Certification Procedure

2-1. Environmental Criteria and Certification Procedure

- (1) For the products, the weight percentage of recycled plastic shall be no less than 50% for the total weight of the product.

[Certification Procedure]

The Applicant shall fill in the names of recycled materials and their respective contents on the Attached Certificate form and submit it together with the raw materials certifications issued by the respective raw material suppliers.

- (2) The Product shall be accompanied by a manual relating to installation, use, maintenance, disassembly, disposal and recycling that is available for reading by the builder and the building owner.

[Certification Procedure]

The Applicant shall state in the Attached Certificate form the conformance (or lack thereof) to this criteria. In addition, the Applicant shall submit a sample of a manual relating to installation, use, maintenance, disassembly, disposal and recycling. Regarding a part of the product’s lifecycle from installation to recycling which is not included in the manual, the reason shall be indicated.

- (3) The product shall be recyclable after use. The product made with multiple materials, the separation method for different materials shall be

considered to be easily conducted.

[Certification Procedure]

The applicant shall explain the recycling method for main materials, and separation method for different materials.

- (4) The product shall have an indication for easy recycling. Indication of polymer type shall follow the symbols of JIS K 6899-1 or ISO 1043-1, and the indication method of JIS K 6999. The target materials of the waterproof tray for bath shall follow the newest version of the “Standards for assessment of bath unit products” shown in the “Product assessment manual for bath unit, bath unit 3R promotion committee”. For the product to which the material indication is regulated by the other laws and regulations, the indication shall suffice for the aforesaid purpose.

[Certification Procedure]

The applicant shall explain the recycling method for main materials, and separation method for different materials.

- (5) Applicable environmental laws and regulations, pollution prevention agreements and any other requirements shall have been observed in the course of the Product manufacture with respect to air pollution, water contamination, noise, vibration, obnoxious odor, emission of hazardous substances, etc.

[Certification Procedure]

The Applicant shall submit a statement signed by the general manager of the manufacturing site of the Product declaring that all applicable environmental laws and regulations and the like have been observed and no violations or the like have been committed during the five-year period preceding the date of application.

2-2. Quality Criteria and Certification Procedure

- (6) The quality of the product shall meet the JIS A 4419 “waterproof tray for bath”. In addition, waterproof tray for washing machine shall meet the own company’s standard in accordance with the applicable BL standard or JIS A 4419.

[Certification Procedure]

The applicant shall submit a document to show conformance with the applicable JIS standards.
